- The goal of a flag tournament is to get as far around the golf course as possible before putting your flag in the ground. The player whose flag is closest to the 18th pin is the winner. When do you put your flag in the ground? When you hit your allocation of shots. How many shots are you allocated? Par + Players Handicap (converted from #1 Tree) = total strokes allowed. For instance, you're a 12 handicap after converting from the #1 Tree, Par at Old Greenwood is 72, so you'll receive 84 stokes. When you hit your 84th shot, place your flag in the ground wherever that shot ends up. The player that puts her flag in the ground the farthest around the course wins. Note! It is possible to play all 18 holes and still have strokes remaining. In that case, note how many strokes you have remaining.
